

Know What to Expect.

Wondering what to expect when remodeling? Most home renovation projects start out with a little idea, and grow into a dream. When you pair your vision and budget with the right home remodeler, it's a very exciting time! If you have realistic expectations and know what to expect with the process, you can turn your dream home into a reality.

TOP 10
Tips to Prepare for Remodeling

1 Stay Connected

Keep open communication with your project manager.

2 Expect Some Dust

Be prepared for some dust and debris.

3 Construction Brings Activity

Commotion is inevitable - a change of scenery can give you a break.

4 Make Material Choices

Choose what you really love upfront.

5 Budget & Schedule

Plan for time and budget increases if you make changes.

6 Stay Flexible

Be flexible in case of weather delays or material problems.

7 Plan for the Unexpected

Creating a contingency budget of 10% is a good rules of thumb.

8 Rollcoaster Highs & Lows

It's a journey, remember the stress is only temporary.

9 Final Walkthrough

Pay attention to details and create a punch list.

10 Enjoy Your New Space

Throw a party! It's the perfect way to celebrate the project's success.

Increase Value in Your Home

If you're buying an older home, many of the features are probably outdated. Here are some of the projects that can give you the most use and add more value to your home.

- Kitchen Upgrades
- Bath Updates
- Room Additions
- Curb Appeal
- Covered Patios
- Fresh Paint
- Updated Flooring
- New Windows
